25X1A

MEMORANDUM FOR: [   ]

SUBJECT: Proposed Filing System

1. In thinking over our conversation of this morning, it seems to me that we were talking of two different sets of files as though they were one file. The way I see it, we should have

    (a) IHC files - papers that actually go before
        the IHC Principals for deliberation (See Tab A)

    (b) Support Staff files - Subcommittee papers,
        such as minutes, working papers, etc., which
        are not forwarded to the IHC principals. (Tabs B, C, &D)

Tab A

1. The numbers 126, 127, and 128 categorize the three Subcommittees. In each case the first paper to go before the IHC principals will be the terms of reference. Hence, the /1 indicates the first paper under each Subcommittee.

Tabs B, C, and D

1. The Support Staff files can be broken down into five categories: Memoranda, Minutes, Working Papers, Reports, and General (or any other categories you want). Of the above categories, it seems that the Reports would be going forward to the principals more than the others. As an example, if a report of the Education and Training Subcommittee (Tab C) were forwarded to the IHC Principals, it would bear the number E&T/R-1, and be forwarded as, say, IHC-D-127/2.

- 2 -

2. Subcommittee Panels

   The Subcommittee Panels, such as the Standards Panel under the Subcommittee on System Design & Development, would be reflected in the Support Staff files (See Tab B), rather than having a separate breakdown in the IHC files.

   If a report of the ~~KMAXMAXXMM~~ Standards Panel (SD&D/Stds Pnl/R-1) were forwarded to the IHC Principals, it would still bear an IHC-D-126 number, to keep it in the same folder with the rest of the Subcommittee on Research and Development material.

   Please keep in mind that these are only examples of how the filing system could work. The five categories in the Support Staff files could be changed to more, or less, and the designation of the Subcommittees (i.e., SD&D), the Panels (Stds Panl), could be changed and represented by numbers, or by some other system you think best.

   I guess that basically I am saying, as I mentioned before, that we need two ~~xapaxx~~ separate sets of files, because we are going to have a lot of stuff around here that won't be going to the IHC, and we should have some means of keeping it separate.

   Pat

IHC Papers

IHC-D-126   Subcommittee on System Design and Development

IHC-D-126/1   Terms of Reference

IHC-D-127   Subcommittee on Education and Training

IHC-D-127/1   Terms of Reference

IHC-D-128   Subcommittee on Research and Development

IHC-D-128/1   Terms of Reference

IHC Support Staff Papers

Subcommittee on System Design & Development:

    SD&D/MM - Memoranda   (SD&D/MM-1, etc).

    SD&D/M - Minutes

    SD&D/W - Working Papers

    SD&D/R - Reports

    SD&D/Gen - General

Development Panel

    SD&D/Dvlmt Pnl/MM - Memoranda

    SD&D/Dvlmt Pnl/M - Minutes

    SD&D/Dvlmt Pnl/W - Working Papers

    SD&D/Dvlmt Pnl/R - Reports

    SD&D/Dvlmt/Pnl/Gen - General

Standards Panel

    SD&D/Stds Pnl/MM - Memoranda
    SD&D/Stds Pnl/M - Minutes
    SD&D/Stds Pnl/W - Working Papers
    SD&D/Stds Pnl/R - Reports
    SD&D/Stds Pnl/Gen - General

OR designation of Panels could be by numbers, Development

Panel - P#1 (SD&D/P#1/MM), etc.

Working Group on Remote Systems Input General Dynamics Machine Language Typewriter: Report and Findings (CODIB-D-85)

MEMORANDUM FOR: *Pat*

You have worked up a very comprehensive scheme. I agree with your premise — separate IAC from SS. I would streamline your SS nomenclature — with other SS member input [that can wait]

Thank you
